

Mohamed Bahaa Salah

UI/UX Designer | Front-End Developer

Giza, Egypt • +20 1555057973 • <mailto:mohamedbahaasalah2@gmail.com> • [linkedin](#) • [github](#) • [behance](#) • [My website](#)

SUMMARY

Computer Science graduate (GPA 3.55) working across UI/UX Design and Front-End Development, with two design internships, multiple freelance projects, and hands-on experience building responsive interfaces with React, Next.js, and modern JavaScript. Comfortable owning the full path from user research and Figma wireframes to a deployed, responsive React component.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, Sass, JavaScript (ES6+), TypeScript, React, React Hooks, Redux, Next.js, Bootstrap, Tailwind CSS, Material-UI, REST API Integration, Responsive / Mobile-First Design

UI/UX: Figma, Wireframing, Prototyping, User Research, Usability Testing, Design Thinking, Design Systems

Tools & Workflow: Git, GitHub, VS Code, npm, Postman, Chrome DevTools

Programming Foundations: C++, Python, Data Structures, OOP

EXPERIENCE

UI/UX Designer Intern — V.CONNECT

Dec 2025 – Mar 2026

- Designed interface screens for an internal ERP system, applying core UX principles to simplify multi-step workflows for end users.
- Reworked navigation flows across two product areas based on usability feedback, reducing the number of steps needed to complete key tasks.
- Used AI-assisted tools during ideation to speed up ideation and prototyping cycles within the design workflow.

UX Designer Intern — Qayedny

Jun 2025 – Sep 2025

- Conducted user research and usability testing to identify friction points across the platform's core user journeys.
- Produced wireframes and interactive prototypes in Figma, then partnered directly with developers to ensure accurate, pixel-level implementation.
- Improved UI consistency across the platform by contributing to a shared component/design pattern library.

EDUCATION

B.Sc. in Computer Science

Graduated 2026

Misr University for Science and Technology (MUST) • GPA: 3.55 / 4.0 • Languages: Arabic (Native), English (Intermediate)

ACADEMIC & COMPETITION PROJECTS

Automated Spatial Platform for Crop Monitoring & Requirements Estimation — Graduation Project, Team Leader • With the National Authority for Remote Sensing & Space Sciences (NARSS) • 2nd Place, Best Graduation Projects • UI/UX Designer

- Led the project team through analysis and product design activities, coordinating tasks and ensuring timely delivery.
- Conducted stakeholder research and translated business requirements into user-centered system designs (Context Diagrams, DFDs, Activity Diagrams, User Flows, ERD).
- Designed dashboards and GIS-based interfaces for Admin, Analyst, and Decision-Maker roles, focusing on usability and decision support.

International Student Sector Platform — UI/UX Designer & Front-End Developer • 1st Place, IS402 Course Project Competition, Faculty of IT, MUST

- Contributed as both UI/UX Designer and Front-End Developer on a platform centralizing academic, administrative, and campus services for international students.
- Designed the end-to-end user experience and built responsive, user-friendly interfaces, including secure role-based authentication, student registration/profile management, and an admin dashboard for announcements, services, and requests.

FREELANCE PROJECTS

Edubot — AI-Powered Educational Platform | Freelance | UI/UX | Figma, Prototyping

- Designed an AI-powered platform letting teachers upload books, generate quizzes, and offer AI-driven summaries for students.

Live News Platform — News & Analytics Dashboard | Freelance | UI/UX | Figma, Prototyping

- Designed a news platform with analytics dashboards, real-time update views, and simplified navigation for a freelance client.

Aman — Missing Person Reporting App (UI/UX) | Freelance | UI/UX | Figma, Wireframing, Prototyping

- Designed a safety-focused app enabling people to quickly report kidnapping, missing-person, or at-risk situations, letting a user in danger alert contacts or authorities in seconds.
- Owned the full one-month design process end-to-end, from user research and flows through final high-fidelity prototypes.

Donuts Shop — Responsive E-Commerce Website | *Freelance | Front-End | HTML5, CSS3, JavaScript*

Built a fully responsive e-commerce site from scratch with semantic HTML, CSS, and vanilla JS, focused on performance and mobile-first design

PERSONAL PROJECTS

Fresh-Cart — E-Commerce Platform | *React, React Router, Context API, REST API*

- Built a responsive e-commerce platform in React with dynamic routing, reusable components, and REST API integration for products, cart, and checkout. (Add link + metric)

TastyBites — Full-Stack Food Ordering App | *React, Django, REST API*

- Developed the front-end of a full-stack food ordering platform in React, consuming a Django REST API for menu, cart, and order management. (Add link + metric)

Weather App | *HTML, CSS, JavaScript, REST API*

- Built a real-time weather app consuming a public API, with async data fetching and dynamic DOM updates.

Travel App & Motorji — UI/UX Case Studies | *Figma, Wireframing, Usability Testing*

- Research-based design work — wireframes and usability testing — for a trip-planning app and a car e-commerce dashboard.

ACHIEVEMENTS & COMPETITIONS

- NEXERA UI/UX Design Competition: 1st Place (Season 1) and 2nd Place (Season 2) in a 10-day daily problem-solving challenge spanning UX, business modeling, and more; invited back as a Mentor for Season 3.
- University Web Competition: Competed as Front-End Developer & UI/UX Designer, delivering a complete web project under time constraints.
- Minders Student Activity, GDGOC & IEEE (MUST University): Active as a Front-End/UI-UX contributor across team-based projects, workshops, and community tech events.

COURSES & CERTIFICATIONS

- LinkedIn Learning — Working and Collaborating Online, Working with Computers and Devices
- Telecom Egypt — Creative Thinking Skills, Effective Communication & Teamwork, General English (Level 8)
