

Mohamed Bahaa Salah

UI/UX Designer | Front-End Developer

Email: mohamedbahaasalah2@gmail.com | Mobile: +2010555057973 | Location: Giza, Egypt

| [LinkedIn](#) | [GitHub](#) | [Behance](#) | [My website](#)

Computer Science student (GPA 3.58) passionate about Front-End Development and UI/UX Design. Skilled in React, Next.js, and modern frameworks, with hands-on experience delivering responsive, user-focused applications. Completed UI/UX internships and multiple freelance projects, gaining strong expertise in research, design thinking, prototyping, and front-end coding

Education

B.Sc. in Computer Science

Misr University for Science and Technology (MUST)

Expected Graduation: 2026 – GPA: 3.58

Experience

UI/UX Designer Intern – V.CONNCT

28-December 2025 – 28 March 2026

- *Designed clean and user-friendly UI screens following basic UX principles.*
- *Worked on improving user flows to make navigation simpler and more intuitive.*
- *Applied feedback to refine designs and enhance usability.*
- *Used AI tools to support ideation and improve design workflow.*
- *Contributed to designing interfaces within an ERP system*

UX Designer Intern – Qayedny

Jun 2025 – Sep 2025 (4 months)

- Worked on improving user journeys and UI consistency across platforms.
- Conducted user research, wireframing, and usability testing.
- Collaborated with developers to ensure smooth implementation.

Freelance UI/UX & Front-End Projects

2025

- **Edubot (UI/UX):** Educational web platform powered by AI. Designed a system for teachers to upload books, create chats, generate quizzes, and help students with summaries & explanations.
- **Live News Platform (UI/UX):** Designed a modern news platform with dashboards for analytics, real-time updates, and user-friendly navigation.
- **Donuts Shop Website (Front-End):** Developed a fully responsive e-commerce website for a donuts shop using HTML, CSS, and JavaScript, focusing on performance and modern design.

Student Activities & Competitions

- **GDGOC – MUST University** → Participated as a **UI/UX Designer** in community activities and design workshops.
- **IEEE – MUST University** → Engaged in tech events and collaborative projects.
- **University Web Competition** → Competed as **Front-End Developer & UI/UX Designer**, building a complete project under time constraints.
- **Minders Student Activity** → Worked as **Front-End Developer** on team-based projects and events.

Technical Skills

Front-End: HTML, CSS, Sass, JavaScript, Bootstrap, Tailwind, React, Redux, Material-UI, Next.js, TypeScript

UI/UX: Figma, Wireframing, Prototyping, User Research, Usability Testing, Design Thinking

Programming: C++, Python, Data Structures, OOP

Other: Microsoft Office, Presentation & Communication

Projects

- **TastyBites:** Full-stack food ordering website (React + Django) with cart & order management.

- **Fresh-Cart:** Responsive React-based e-commerce platform with dynamic routing & UI components.
- **Travel App Design (UI/UX):** Research-based project with wireframes, prototypes, and usability testing for intuitive trip planning.
- **Motorji (UI/UX):** E-commerce car platform design with responsive dashboards.
- **Weather App:** Real-time weather updates using API integration (HTML, CSS, JS).
